Hailey Longoria has quite a story to tell. Pressed on every side, time after time to abort for a myriad of reasons, she stands today with a beautiful family. This September, Hailey will share her story of the faithfulness of God as He stayed near to her during her running, her descent into bad choices, and the barrage of heartache that would face her in the years to come. Her story of hope, help, healing and forgiveness is inspiring and will certainly remind you of why your help has an eternal impact on lives. Celebrating here in these photos with former HELP Client Service Director Wanda Smith, Hailey shares her miracle twins with the HELP center and reminds us of the miracle of life. The Twins, and Hailey herself, are the miracle in this birth and we are excited to share her life and her testimony of the goodness of God with you.

## Forgiven & Set Free!

Inna Korotkova faced life after an abortion.

Abandoned and no longer in a relationship she felt her child had no chance without a father. Soon after though, the bitterness and regret from that decision tormented her with guilt and heartache.

Furthermore Inna feared retribution from God for the innocent life she had taken. Life turned around for Inna as she followed after Christ, married and became pregnant with Sophia Rose. The enemy brought up her past and Inna feared for her unborn Sophia. "Why would God give me a gift like this?" she asked. What Inna found in the beautiful love of Jesus, which was spoken over her in the Forgiven & Set Free Bible Study, is that God is the Lord of Mercy and Grace. His forgiveness is perfect and when we fall into His arms He throws our past mistakes into a sea of forgetfulness. Inna is no longer a slave to sin & regret; she is forgiven & set FREE! We love you little Sophia and your entire family! Thank you help partners—You Matter!

Sherry, eighteen years old and ten weeks pregnant came, under great turmoil, in to HELP Pregnancy Center unsure of whether she should keep her baby or abort. Her parents were pushing Sherry to abort as it would ruin the plans they had laid out for her. We invited her in for an ultrasound and she agreed. Mom was disappointed when Sherry agreed and they both labored under the heavy burden up the stairs where the ultrasound would take place. They both stayed together (mother & daughter) in an awkward alliance as they waited for the invitation to come in. Nervous and anxious the duo waited as the sonographer place the transducer on Sherry's abdomen and started to hone in on the precious "Child". Instantly, both mother and daughter began to weep uncontrollably and just as instantly the decision was made. Sherry was keeping her baby, and Grandma was never so thrilled with her decision. The spiritual road of healing began that day as God showed that He alone was the creator of life and that man may make their plans, but God alone orders our steps. Continue to pray for all our clients, past, present and future as the healing that begins one day with one decision, can and indeed does impact generations to come.

## VIRTUAL BABY BOTTLE BOOMERANG

Changing Lives, One little piggy at a time!

\* Please add your church name to the notes virtually.

It is my pleasure to join the staff of HELP Pregnancy Center as the Development Coordinator. I am amazed at the work being done here at the center and am so encouraged and taken aback by the incredible support and response from the community. So many, including the church, partners and the local businesses support our mission faithfully. Over the past several months I have been witness to the kindness and generosity of all those who have built into this ministry. My heart overflows with thanksgiving as we fight for every life, whether the unborn or the unborn again. It is obvious that the importance of every life lives within your hearts. I hope to keep you informed as to the work that goes on within these walls and encouraged as it continues a glorious testimony unto our God in the years ahead. Please pray with us to remain centered on the Lord's wisdom, courage and provision as we continue to build the life changing foundations to help alter the perspective on an unexpected pregnancy from one of ruin to one of wonder, joy and blessing.

In His Service—Marcia McNeil
