The Power of the Ultrasound!

With even sharper images from ultrasound it is harder than ever to deny the humanity of an unborn child. In 2014, an incredible moment in the pro-life movement as an unborn child giving a big thumbs-up “the Fonzie” inspired millions to post their ultrasound pictures. Releasing an organic wave of awareness against the “blob” narrative heralded by those abortion proponents, TRUTH was hard to deny. As ultrasound technology continues to improve and imaging is life-like, it is no wonder that a mother looking at an ultrasound of her 10-12 week old child 85% -90% of the time chooses LIFE! Here at the HELP Pregnancy Center, the ultrasound machine is one of the greatest tools we have in the “Fight for Life”. Just this month we have added a brand new machine to our mobile HELP unit that parks in front of the abortion facility six days a week to offer this life-choosing imaging system. Weekly, moms enter the HELP Mobile Unit and our Center for a FREE ultrasound and a LIFE counselor to talk them through the miracle of each and every life given the breath of God. For a moment they must come to grips with the human being, their child, as

they squirm and wiggle before them on the screen. Then they are told of the grace of God, his gift of salvation and for forgiveness. This Good News and the options and helps available to them through loving friends are many times exactly what is needed to HELP them choose life. Thank you partners and friends for saving so many. YOU MATTER!
